CONTENTS

Vol. 62, No. 1, June 25, 1955

PAGE

Ito, F. Studies on Tissue Protease. V. Protease Activity of Tissues under Anaphylactic Shock State 1

Mugikura, Y. Studies of High-molecular Placental Components in Connection with Pregnancy Toxemia. Fourth Paper. On Placental Non-Hexuronic Acid-Containing Mucopolysaccharide 11

Suzuki, Y. Biochemical Studies on Carbohydrates. CLXXVIII. On Molecular Aggregation in Solution of a Group-active Mucopolysaccharide from Pig Stomach Mucus 19

Saheki, M. Experimental Studies on the Passage of Non-pathogenic Bacteria through the Kidney 27

Monma, K. Experimental Studies on the Passage of Pathogenic Bacteria through the Kidney 41

Majima, S. Histopathologic Studies of Gastric Ulcer-Carcinoma. I. On the Origin of Gastric Ulcer-Carcinoma 53

Majima, S. Histopathologic Studies of Gastric Ulcer-Carcinoma. II. On the Growth of Ulcer-Carcinoma 63

Majima, S., Katami, J., Kurakake, N. and **Hoshi, N.** On the Postoperative Prognosis in Ulcer-Carcinoma of the Stomach 75

Masamune, H. and **Akama, Z.** Chemistry and Biology of Lipids. XX. Interconversion *in vitro* of Blood Groups A and B 81

Kozu, K. Studies on Tuberculous Tracheobronchitis. I. Experimentally Established Tuberculous Bronchial Ulcer in Dog 93

Vol. 62, No. 2, September 25, 1955

Kozu, K. Studies on Tuberculous Tracheobronchitis. II. Bronchial Stenosis in Human Pulmonary Tuberculosis.... 105

Katami, J. On the Late Results of 435 Cases of Ordinary Gastric Resection for Cancer, with Special Reference to the Relation between the Results and the Histopathologic Findings. 117

Abe, M. A Case of Diabetes Insipidus Treated with Germanin (Bayer 205). 128

Kawamura, K. Electromyographical Studies on Graves' Disease. ... 129

Tsuiki, Y., Watanabe, T. and **Kamioka, H.** Studies on the Ear-Labyrinth and its Responsiveness to Various Sorts of Medicaments under Phase Contrast Microscope. 137

PAGE

Honda, K., Sato, T., Ogawa, M. and **Konno, S.** Preliminary Report on an Electrophoretic Method for Analyzing Liver Proteins. 147

Sato, T. Electrophoretic Studies of Liver Components. Studies on Protein Fraction. Report VIII. 151

Saito, A. Studies on the Pathogenetic Microbes in Bone Marrow in Typhoid and Paratyphoid. 1st Report. Results of Cultures of Pathogenetic Microbes from Bone Marrow in Typhoid and Paratyphoid. 161

Saito, A. Studies on the Pathogenetic Microbes in Bone Marrow in Typhoid and Paratyphoid. 2nd Report. The Relation between the Findings of Pathogenetic Microbes in Bone Marrow and Clinical Symptoms of Typhoid and Paratyphoid. 173

Saito, A. Studies on Pathogenetic Microbes in Bone Marrow in Typhoid and Paratyphoid. 3rd Report. The Development of Pathogenetic Microbes in Bone Marrow and the Clinical Significance of Bone Marrow Punctures. 183

Kurosawa, T. Selective Stimulation of Retinal Receptors with Electric Currents of Various Forms. 195

Vol. 62, No. 3, October 25, 1955

Katayama, S. Retinal Induction Caused by Direct Electric Currents of Various Forms. 209

Hoshi, T., Kojima, T., Kameyama, S. and **Matsuda, K.** On the Influence of Postural Change upon the Cardiac Rate in Man. ... 221

Nanjo, E. Electromyographic Observations of the Respiratory Muscles during General Anesthesia. 235

Yamaguchi, T. and **Hino, Y.** A Method of Measuring the Volume of the Circulating Blood in the Lungs and the Minute Volume by Means of Sodium Para-aminohippurate. 243

Takahashi, S., Komiyama, K. and **Tanaka, M.** A Fixed Anode Tube with a Very Fine Focus Made with Autobiased Electron Beam. Its Application to Enlargement Radiography. (Studies on Enlargement Radiography. 1st Report). 253

Mitarai, G. Cortical Response to Photic Stimulation. (Part I). ... 261

Mitarai, G. Cortical Response to Photic Stimulation. (Part II). ... 271

Ohara, S. A Morphological Study of Yato-Byo Bacteria. (Bacterium Tularense). 283

Peng, M. T., Lee, H. C. and **Lin, H. S.** Action of Psidium Root on the Reproductive Organs of Rats and Mice. 287

PAGE

Chang, C. and **Peng, M. T.** The Fructose and Citric Acid Content in the Male Accessory Glands of Reproduction of the Rats Administered with Psidium Root. 299

Vol. 62, No. 4, November 25, 1955

Sato, T., Segawa, K., Kumei, Y., So, S., Ando, T. and **Naganuma, E.** Studies on the Labile Liver Proteins in Surgical Diseases of the Upper Abdomen... 303

Sato, T. Electrophoretic Studies of the Liver Components in Surgical Diseases of the Upper Abdomen. (Studies on Protein Fraction. Report IX). 315

Saito, Y. and **Turumi, K.** Polysaccharide from Dura mater. 325

Turumi, K. and **Yamada, S.** L-Serine from D-Glucosamine 329

Saito, Y., Takahashi, S. and **Turumi, K.** On Serum Sialic Acid Content, Primary Notes... 333

Ooba, Y. The Relation between the Magnitude of Cone Processes and the Duration of Illumination in the Human Fovea.... 337

Suzuki, E. The Relation between the Electrical Excitability and the Duration of Illumination at the Peripheral Retina.... 345

Kuroyanagi, T. Studies on the Capillary Permeability Promoting Action of Serum. I. Its Relations to Fibrinolysis and Increased Capillary Permeability. 353

Kuroyanagi, T. Studies on the Capillary Permeability Promoting Action of Serum. II. Significance of the Serum CPPA in Its Relation to Increased Capillary Permeability in Anaphylaxis and Peptone Shock.... 359

Kuroyanagi, T. Studies on the Capillary Permeability Promoting Action of Serum. III. Significance of Serum CPPA in the Arthus Reaction and the Shwartzman Phenomenon. 367

Yonemura, D. and **Ishisaka, N.** On the Electrical Excitability of the Eye in Congenital Achromatopsia (with Motokawa's Method)... ... 377

Takahashi, S., Kitabatake, T. and **Sawada, M.** A Device for Obtaining Better Detail in Roentgenograms of Crying Infants. Slit Shutter Radiography. 391
